

LickiMat®

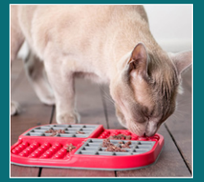

The Modern Feeding Family™

2027 Collection

PRODUCT CATALOG

Our mission is to make innovative products to improve the physical and emotional health of dogs and cats. This helps everyone in the family and makes life better.

Our products are vet developed in Australia and are made from the safest, most appropriate and most environmentally friendly materials available. We never use silicone in our products.

As The Modern Feeding Family, we've reimagined traditional feeding methods to complement the way pets eat today, from fresh and raw diets to wet food, kibble and nutritious treats using our uniquely designed surfaces and textures for your dog and cat.

LickiMat models are used for multiple applications. The guide above is illustrative and designed to help retailers better position LickiMat models in their stores.
The LickiMate Keeper works with a number of LickiMat models.

Anxiety Support

Lick. Calm. Repeat.

Licking is a natural, repetitive behaviour that can help dogs relax and self-soothe. LickiMat encourages prolonged licking and tongue stimulation through the Soother™ surface, creating a calming and rewarding experience.

Ideal for supporting dogs during potentially stressful moments such as grooming, thunderstorms, fireworks or changes in routine. LickiMat helps turn a favourite treat into a positive, engaging activity.

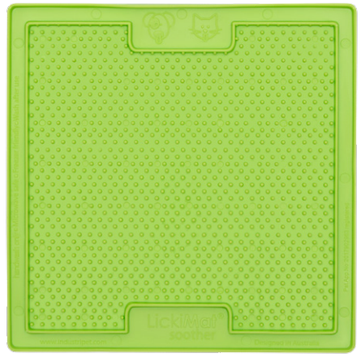

Why choose the LickiMat Soother?
The Soother's fine, soft rubber nubs encourage gentle, repetitive licking, making it particularly suited to calming routines. The Soother is used and recommended by thousands of vets and trainers worldwide and remains unique in the market today.

Why Rubber?
We use rubber for softness to make licking more pleasurable, to retain foods for longer licking and for maximum pet safety. There is no substitute.

ANXIETY

Slower, healthier feeding...

Mealtimes shouldn't be a race. Eating too quickly can lead to discomfort, health issues and make it harder for dogs to enjoy their food.

Pet parents put more thought, care and investment than ever into what goes into their dog's bowl. Yet for many dogs, a carefully prepared meal disappears in seconds.

LickiMat helps change that. Our specially designed patterns, raised textures and feeding pockets encourage dogs to slow down, savour every bite and spend more time enjoying the food you have chosen for them, without the frustration of a maze or puzzle.

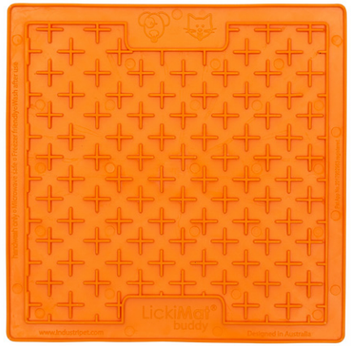

Different LickiMats for different foods and also for variety and fun to turn everyday meals into a longer-lasting, more rewarding feeding experience.

Designed for fresh, wet, raw, ambient, dry, freeze-dried, purées, pâtés and all other modern pet foods.

SLOW FEEDING

Fulfil, Enrich, Distract and Entertain

More than a meal or treat

Dogs thrive on opportunities to explore, engage and use their natural instincts. Engagement, licking and tongue stimulation provide enrichment to everyday routines.

LickiMat transforms healthy, ordinary food and treats into rewarding licking activities that keep dogs occupied, entertained or distracted.

LickiMat products are designed to support the preparation and delivery of a wide variety of healthy foods and treats to support your pet.

Trainers, Behaviourists and Vets use and recommend LickiMat for a variety of applications. The possibilities are endless and you are encouraged to work out what works best for your pets as they go through different life stages and foods.

From longer-lasting food challenges to interactive feeding during grooming or crate time, our enrichment range makes it easy to add more enjoyment to your dog's day.

Big Dogs

Bigger Licking. Slower Feeding.

Big appetites deserve more than an ordinary feeding bowl.

Our XL LickiMat range provides a larger feeding surface for bigger portions, helping large and giant breeds enjoy their food at a slower, more controlled pace.

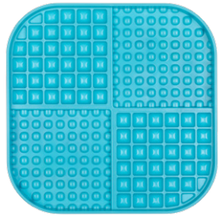

With specially designed textures for different food consistencies, the XL range combines the benefits of calming licking, slow feeding and enrichment in a size suited to larger dogs.

PET FOOD TYPES

CAT SLOW FEEDER

& Cat

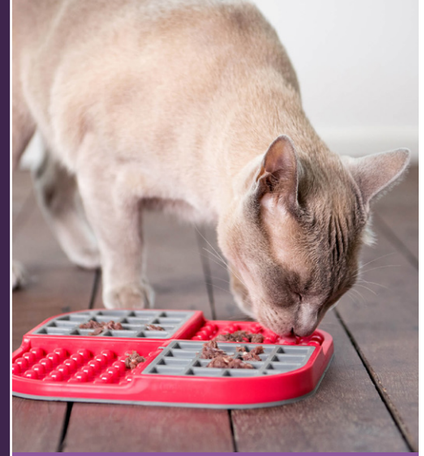

Slow Feeding and Enrichment

The LickiMat Cat range addresses the key issues for cats: slower feeding combined with enrichment whilst feeding. The plate designs reduce whisker stress and provide your cat with the ability to see their surrounds, whilst the specially designed textured surfaces provide stimulation without frustration whilst slowing all feeding.

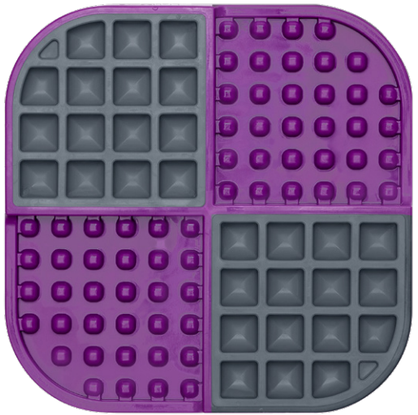

Different LickiMat models for different foods including designs that support Wet and Dry foods on the same plate without making a mess.

There are more specialty LickiMats for liquid food, cat anxiety, reducing hair in your cat's mouth and for older cats.

Ideal for quiet moments, changes in routine or simply enjoying a favourite treat, LickiMat makes calming enrichment part of everyday feline care.

Cat Anxiety Support

Cats get anxious too!

The Soother™ family of LickiMats provide support in directing healthier licking.

Like all LickiMats, they can be used differently with different foods. The Mini Soother is slowly becoming the most popular LickiMat cat feeder!
